NOUREDDINE TRABELSI

AI Engineering Student | NLP & Machine Learning | Seeking PFE Internship — February 2027

Ariana, Tunisia | +216 56 512 665 | Noureddinetrabelsi80@gmail.com | LinkedIn: noureddine-trabelsi

PROFILE

Final-year engineering student at Ibn Khaldoun University (UIK), specializing in Artificial Intelligence, Data Science and Business Intelligence. Interested in NLP, semantic search, embeddings, CV–job matching and LLM applications. Seeking a final-year internship (PFE) in AI, NLP or Data Engineering starting February 2027.

TECHNICAL SKILLS

NLP & AI: TF-IDF, LSA, Word2Vec (CBOW/Skip-Gram), GloVe, Sentence Transformers, Hugging Face, cosine similarity, RNN/LSTM, LLM prompting.

Machine Learning: scikit-learn, pandas, NumPy, Matplotlib, feature engineering, model evaluation.

Data & BI: SQL, MySQL, SQL Server, Power BI, DAX, Power Query, data-processing pipelines.

Development & tools: Python, Dart, Flutter, Streamlit, Git/GitHub, Jupyter, Google Colab, VS Code, Excel.

SELECTED PROJECTS

CVMatchingAI — NLP-Powered CV–Job Matching | NLP semester project, 2026

- Built an interactive Streamlit application to compare resumes with job descriptions, identify matching and missing skills, and suggest improvements.
- Implemented a workflow combining text/skill extraction, keyword matching, sentence embeddings and cosine similarity; integrated LLM-generated recommendations.
- Stack: Python, Sentence Transformers, Hugging Face, scikit-learn, Streamlit.

NLP Analysis of 1,000 Resumes | Academic mini-project, 2026

- Processed a 1,000-resume corpus using cleaning, tokenization, stopword removal, bigrams, TF-IDF, LSA, cosine similarity and word clouds.
- Trained and compared Word2Vec (CBOW, Skip-Gram), GloVe and RNN configurations using Python, Gensim, scikit-learn and TensorFlow/Keras.

House Price Prediction | Machine Learning project

- Prepared housing data, engineered features and compared regression models using RMSE and R^2; Python, pandas, NumPy, scikit-learn, Matplotlib.

Sales Performance Dashboard | Power BI project

- Created interactive sales KPI dashboards using SQL data, DAX measures and Power Query transformations.

PROFESSIONAL EXPERIENCE

Frontend Development Intern | Designet Web Agency, Menzel Temime | Jul–Sep 2026

- Contributed to a cross-platform web/mobile application with chatbot integration; developed Flutter frontend components connected to a Laravel (PHP) backend and MySQL database.
- Collaborated with a developer under supervision; stack: Flutter, Dart.

EDUCATION

Ibn Khaldoun University (UIK) — Engineering degree in AI, Data Science & Business Intelligence | Expected June 2027

Relevant coursework: NLP, Deep Learning (FNN, CNN, RNN, LSTM), Machine Learning, Business Intelligence, Databases.

ESPRIT — Private Higher School of Engineering and Technology — Two-year integrated preparatory cycle and first engineering year.

ADDITIONAL INFORMATION

Training platforms: Cisco Networking Academy; Coursera (course titles to be specified). Activities: IEEE Student Branch, ESPRIT (3 years).

Languages: Arabic (native), French (professional), English (professional).
